EDUCATION

COLLEGE EDUCATION -	**B.Tech AI & DS** Sri Eshwar College of Engineering	**|| CGPA:** 8.39(IV-semester)	**2024-2028**
SCHOOLING -	**HSC** Vivek Vidyalaya Matriculation Higher Secondary School	**|| 93.5%**	**2023-2024**
SCHOOLING -	**SSLC** Vivek Vidyalaya Matriculation Higher Secondary School	**|| 91.8%**	**2021-2022**

INTERNSHIP EXPERIENCES

Infoziant - Link **2025**

Engineered 2 responsive full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), integrating frontend interfaces with backend REST APIs. Architected 10+ reusable React.js components and designed RESTful APIs for authentication, data exchange, and business logic, optimizing MongoDB schemas to streamline CRUD operations.

DevOps Intern **2026**

Containerized applications with Docker and Docker Hub, and configured Kubernetes (k3s) clusters with Deployments, Services, and NodePort for production-grade orchestration. Automated build, test, and deployment workflows using GitLab CI/CD pipelines; orchestrated GitOps delivery with Argo CD to continuously sync Git repositories with Kubernetes clusters.

SKILLS ACQUIRED:

Frontend : React.js, Redux Toolkit, JavaScript, HTML5, CSS3, Responsive UI Development
Backend : Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, API Integration
DevOps : Docker, Docker Hub
Tools : Git, GitHub, Postman, VS Code

PROJECTS

Smart Attendance Tracking System for Rural Schools GitHub **2026**

Tech Stack: Python, OpenCV, LBPH Face Recognizer, Haar Cascade, Flask

Engineered an AI-powered facial recognition attendance system for rural schools using OpenCV's LBPH algorithm and Haar Cascade detection, achieving reliable identification in low-resource, low-bandwidth environments. Deployed a production Flask web application that processes real-time video feeds and logs attendance automatically, eliminating manual roll calls while minimizing hardware requirements for rural deployment.

MediScan AI — AI-Simulated Medical Diagnosis System GitHub **2025**

Tech Stack: Python, Flask, OpenCV, SQL, Computer Vision

Architected a full-stack **AI diagnostic web application** using **Flask** and **OpenCV** to analyze X-ray images and generate probabilistic disease recommendations through a rule-based inference engine. **Implemented** secure patient management with authentication and **SQL** database integration, and designed a responsive, multilingual dashboard to improve healthcare accessibility. **Enhanced** diagnostic accuracy by integrating advanced image preprocessing, feature extraction, and automated report generation, while optimizing backend workflows to deliver faster predictions and a seamless experience for both patients and healthcare professionals.

BloodLink – Smart Blood Donation & Emergency Request Platform GitHub **2026**

Tech Stack: React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, REST APIs

Built a scalable **MERN-based** healthcare platform connecting donors, hospitals, and blood banks through secure **role-based authentication** and **RESTful** services, enabling efficient blood request and donor management. Implemented blood compatibility algorithms, emergency request prioritization, and location-aware donor matching, while optimizing frontend performance with **React, Vite, Tailwind CSS,** and secure backend operations using **MongoDB, Express.js, and JWT.**

ACHIEVEMENTS

Second Prize — Project Expo 2026, Sri Eshwar College of Engineering (SECE) **2026**
Finalist — InnoHack 2K26, VIT Hackathon (selected among 150+ teams) **2026**
Final Round — Smart India Hackathon (SIH) 2025 Internals **2025**

CODING PROFILES

Leetcode - 240+ problems solved | Contest Rating: 1762 | Global Rank: 86,540 | Top 13.31% | Profile Link: SriPonRama
Skillrack - 850+ challenges | 250+ bronze badges | Profile Link: SriPonRama

CERTIFICATIONS

Design Thinking – A Primer (Score: 76%)	| NPTEL	**2026**
Programming in Java (Score: 96%)	| NPTEL	**2025**
Mastering DSA using C, C++	| Udemy	**2025**
Python Programming Mastery	| Udemy	**2025**
Responsive Web Design Developer	| FreeCodeCamp	**2024**

TECHNICAL SKILLS

Languages	Java | Python | C++ | C | JavaScript | HTML5 | CSS
Technologies/Frameworks	React.js | REST APIs | OpenCV | Machine Learning
Database	MySQL | MongoDB | PostgreSQL
Tools	Git | GitHub | Docker | Postman | Jupyter Notebook
Core Concepts	DSA | OOPS | DBMS | SDLC
